Chapter 1 HISTORICAL BACKGROUND 1

1.1 The Edo Era	2	
		Yoshito Takeuchi (The University of Tokyo)
1.2 The Modern Era	3	
		Shousuke Teratani (Tokyo Gakugei University)

Chapter 2 JAPANESE CHEMICAL EDUCATION 8

2.1 Introduction. A General Survey of Chemical Education	9	
		John T. Shimozawa (Saitama University)
2.2 The Educational System of Japan	11	
		John T. Shimozawa (Saitama University)
2.3 The Course of Study	11	
		John T. Shimozawa (Saitama University)
2.4 Approval of Textbooks	13	
		John T. Shimozawa (Saitama University)
2.5 The Law of the Promotion of Science and Technology Education in Schools	14	
		John T. Shimozawa (Saitama University)
2.6 Entrance Examination to Higher Education	14	
		John T. Shimozawa (Saitama University)

Chapter 3 CURRENT STATUS OF THE INDIVIDUAL STAGES IN CHEMICAL EDUCATION 17

3.1 Introduction	18	
		Haruo Hosoya (Ochanomizu University)
3.2 Elementary Schools	18	
		Haruo Hosoya (Ochanomizu University)
3.3 Lower Secondary Schools	20	
		Haruo Hosoya (Ochanomizu University)
3.4 Upper Secondary Schools	24	
		Haruo Hosoya (Ochanomizu University)
3.5 Colleges of Technology	26	
		Shiro Haruyama (Tokyo College of Technology)
3.6 Universities	27	
		Haruo Hosoya (Ochanomizu University)
3.7 Institutes of Technological Sciences	32	
		Haruo Hosoya (Ochanomizu University)
3.8 Graduate Schools	32	
		Tatsuaki Yashima (Tokyo Institute of Technology)

Chapter 4	TEACHER TRAINING--PAST AND PRESENT	34
4.1	Teacher Training System before World War II Tadashi Hasegawa (Tokyo Gakugei University)	35
4.2	Teacher Training System after World War II Tadashi Hasegawa (Tokyo Gakugei University)	36
4.3	Increase of Upper Secondary School Students Tadashi Hasegawa (Tokyo Gakugei University)	40
4.4	Increase of College/University Students Tadashi Hasegawa (Tokyo Gakugei University)	41
4.5	<i>Gakugei</i> University and the Faculty of Education Tadashi Hasegawa (Tokyo Gakugei University)	43
4.6	Graduate Schools for Teachers and Expected-Teachers Nobutaka Itoh(ex. Hyogo University of Teacher Education) and Yukio Masui (Kansai Women's College)	46
4.7	Examination for Service for Teachers--Condition of Obtaining Teaching Position Yukio Masui (Kansai Women's College)	49
4.8	Part-time Teachers Yukio Masui (Kansai Women's College)	51
4.9	In-Service Training of Teachers Yukio Masui (Kansai Women's College)	51
4.10	School Teaching as a Profession--the View of Younger Generation Tutomu Koide (Osaka Kyoiku University)	53
Chapter 5	PRESENT STATE OF CONTINUING PUBLIC EDUCATION	56
5.1	Continuing Public and Mass-Media Education Takashi Ito (Yokohama National University)	57
5.2	Whole-Life Education (<i>Shogai Kyoiku</i>) -Recurrent or Refreshment Education Systems Takashi Ito (Yokohama National University)	61
5.3	Publications Related to Chemical Education Akira Takaesu (Musashi Upper Secondary School)	61
Chapter 6	CHEMICAL EDUCATION AS RELATED TO THE CHEMICAL INDUSTRY	65
6.1	Historical Background of the Japanese Chemical Industry --The Meiji Era Keiji Yamamoto (Tokyo Institute of Technology)	66
6.2	Features of the Japanese Chemical Industry -The Role of Government and the Employer-Employee Relationships Keiji Yamamoto (Tokyo Institute of Technology)	67
6.3	Educational System Related to Chemical Industry Shohei Inoue (Science Univeristy of Tokyo)	69
6.4	Relationships between Universities and Industry Shohei Inoue (Science Univeristy of Tokyo)	73
6.5	In-Company Training and Chemical Education Shohei Inoue (Science Univeristy of Tokyo)	75
Chapter 7	CHEMICAL EDUCATION IN THE MOVING AGE	78
7.1	Introduction Yoshito Takeuchi (The Univeristy of Tokyo)	79
7.2	Rapid Decrease of School AgeChildren AkiraTakaesu (Musashi Upper Secondary School)	80
7.3	A Proposal For a New "Course of Study" John T. Shimozawa (Saitama University)	82

7.4	From "Common Examination" to "Center Examination"	84
	Akira Takaesu (Musashi Upper Secondary School)	
7.5	New Trends in University Entrance Examinations	85
	Masahiro Kotani (Gakushuin University)	
7.6	Abolishment of General Education--Fundamentalization (<i>Taiko-ka</i>)	
	Yoshito Takeuchi (The University of Tokyo)	
7.7	"3K" and Science-Shunning in the Younger Generation	90
	Haruo Hosoya (Ochanomizu University)	
7.8	A Rapid Increase in the Demand for Social Education	90
	Tatsuaki Yashima (Tokyo Institute of Technology)	
7.9	Internationalization of Chemical Education at Various Stages	92
	John T. Shimozawa (Saitama University)	
7.10	Research Activities in Chemical Education	94
	Masakatsu Hirose (Senshu University)	
	Yoshinobu Nakamura (Saitama Prefectural Koshigaya-kita Upper Secondary School)	
7.11	History and Activities of the Chemical Society of Japan	98
	Atsuo Nakanishi (The Chemical Society of Japan)	
7.12	"Chemistry and Education"	103
	Yoshito Takeuchi (The University of Tokyo)	
	Masato M. Ito (Soka University)	

APPENDIX

106

A	Statistics	
A.1	Elementary School	107
	Akira Takaesu (Musashi Upper Secondary School)	
A.2	Lower Secondary School	108
	Akira Takaesu (Musashi Upper Secondary School)	
A.3	Upper Secondary School	109
	Akira Takaesu (Musashi Upper Secondary School)	
A.4	Chemists and University Chemistry Majors	109
	John T. Shimozawa (Saitama University)	
	Masato M. Ito (Soka University)	
A.5	Some Aspects of Recent Chemical Industries	111
	Keiji Yamamoto (Tokyo Institute of Technology)	
	Masato M. Ito (Soka University)	
B	The Course of Study	
B.1	Elementary School	114
	John T. Shimozawa (Saitama University)	
B.2	Lower Secondary School	115
	John T. Shimozawa (Saitama University)	
B.3	Upper Secondary School	
B.3.1	The Purpose of the Revision	121
	Kiyoshi Mutai (The University of Tokyo)	
B.3.2	Integrated Science	122
	John T. Shimozawa (Saitama University)	
B.3.3	Chemistry IA	125
	John T. Shimozawa (Saitama University)	
B.3.4	Chemistry IB	126
	John T. Shimozawa (Saitama University)	
B.3.5	Chemistry II	128
	John T. Shimozawa (Saitama University)	

C	Facts and Figures at Schools and Universities	129
C.1	Curriculum of "Rika" at Elementary School Shousuke Teratani (Tokyo Gakugei University)	129
C.2	Chemical Education as a Part of "Rika" Education at Lower Secondary School Osamu Kai (Kawasaki City Education Committee) Yoshito Takeuchi (The University of Tokyo) Shousuke Teratani (Tokyo Gakugei University)	130
C.3	Chemical Education at Upper Secondary School Toru Tsuchiya (Tokyo Metropolitan Jyoto Upper Secondary School) Yoshito Takeuchi (The Univeristy of Tokyo) Shousuke Teratani (Tokyo Gakugei University)	137
C.4	Curriculum for Students Majoring Chemistry in Universities Takashi Ito (Yokohama National University)	141
D	Examples of Problems on Entrance Examination	144
D.1	Entrance Examination to Private Lower Secondary School Masahiro Kotani (Gakushuin University) Chieko Hirobe (Seisen Women's University)	144
D.2	Entrance Examination to Private Upper Secondary School Masahiro Kotani (Gakushuin University) Chieko Hirobe (Seisen Women's University)	146
D.3	Entrance Examination to Public Upper Secondary School Masahiro Kotani (Gakushuin University) Chieko Hirobe (Seisen Women's University)	146
D.4	Entrance Examination to National Upper Secondary School Masahiro Kotani (Gakushuin University) Chieko Hirobe (Seisen Women's University)	146
D.5	Center Examination for University Candidates Masahiro Kotani (Gakushuin University) Chieko Hirobe (Seisen Women's University)	146
D.6	Entrance Examination to Private University Masahiro Kotani (Gakushuin University) Chieko Hirobe (Seisen Women's University)	147
D.7	Entrance Examination to National Universit Masahiro Kotani (Gakushuin University) Chieko Hirobe (Seisen Women's University)	148y
E.	Furthr Readings	149
F	Equivalent Terms in English and Japanese John T. Shimozawa (Saitama University) Masato M. Ito (Soka University)	150
